GIANT ZINNIAS—Rainbow Collection

Over 20 shades and colors. The most beautiful collection of colors we have ever offered. Giant blooms, many of them 5 to 6 inches across, of over 20 named zinnia varieties. Dazzling bright colors or soft pastels for a striking garden display. Sturdy and easy to grow.

Mixed Pkt., 10¢.

PANSIES—Ruffled Masterpiece

Beautiful pansies with large fluted and ruffled flowers. Dark rich colors edged or splashed with bright contrasts in color. Blooms freely and continuously.

Mixed Pkt., 15¢

PETUNIAS—Mills Giant Fringed and Ruffled Beauties

The giant ruffled Petunias you have always wanted. Gorgeous blooms in deep rich colors and soft delicate shades, many measuring 5 to 6 inches across. Provide a striking conversation piece for your garden.

Mixed Pkt., 15¢.

F. B. MILLS SEED GROWER, ROSE HILL, NEW YORK

Plant MILLS Tested Seeds

Dear Garden Friends,

In preparing this 1952 Mills Seed catalog, we have endeavored to make every single page exciting not only for the beautiful flower and luscious vegetables described, but also for more outstanding bargain offers than we have been able to provide before.

So please check each page carefully, so you won't miss a single item or special offer. All special money saving offers are numbered for ease in ordering.

The Mills special offers are so outstanding that you may wish to tell your garden friends about them that they too may profit by ordering their flower and vegetable seeds from Mills Seed House.

All Mills Seeds are tested and guaranteed for germination, a company policy that has been maintained for 65 years.

Thank you for your continued and valued patronage.

F. B. Mills

Instructions for Ordering Mills Seeds

Please use our Order Blank when ordering, if possible, which you will find in this Seed Book and be sure to sign your name and give full address on every order or letter you send us. Enclose remittance with each order and do not ask us to send C. O. D. unless absolutely necessary for it delays delivery.

Free Delivery — Prompt Service

We pay postage on everything offered in this Seed Book. This means we deliver postpaid to any Post Office in the United States or Possessions. We mail Seeds to Canada if 20 per cent of the total order is included in the remittance to cover exchange and extra packing and postage. You can depend on prompt service. Order early as possible.

How to Make Remittances

We have been doing a strictly cash-with-order business for 65 years and you run no risk in sending remittance with order. We refer you to hundreds of thousands of our customers.

Remit by Post Office or Express Money Order, Draft or Registered Letter. If cash or postage stamps are sent we cannot be held responsible for safe delivery unless registered. Please do not send Air Mail or Special Delivery Stamps. No foreign postage stamps or foreign coin accepted.

F. B. MILLS SEED GROWER, Inc.

65 Years Experience

is back of Mills Seeds. Our trade has increased year by year and this should be the best proof that MILLS SEEDS give satisfaction.

Double Guarantee

FIRST—We guarantee the Vitality and Purity of our Seeds to the full amount of the purchase price if properly planted and cared for the same year purchased, if proof is furnished that the fault was with the seeds.

Even with the highest quality of Seeds success depends largely upon soil, not too deep or too shallow planting, cultivation and weather conditions after planting.

It is, therefore, agreed that in no case shall we be liable for more than the amount actually paid, and if not accepted on these conditions, they must be returned at once.

SECOND—We guarantee the safe arrival of all Seeds in good condition, and should anything be damaged or lost on the way we will replace when proof is furnished. This is the Double Guarantee that protects all who purchase MILLS SEEDS.

VEGETABLE SEEDS

Marigold — Glitters

All America Selection for 1951

This new Marigold has large fluffy chrysanthemum-like flowers of canary-yellow color, fully double. Blooms 3 or more inches across are borne on long strong stems continuously from early summer until frost. Their long keeping qualities makes them ideal for cutting and for garden display. Pkt., 25c.

New Giant Zinnia — Burpee's Hybrids

Flowers are large, fluffy and ruffled with attractively curled petals like giant Chrysanthemums. The loosely arranged petals give softness to the flower which grows up to 6 in. across. The mixture includes new colors as Corals, unusual Pinks, Scarlet with cream or light Yellow centers, and two-tones.

Pkt., 25c.

If You Receive More Than One SEED BOOK Please Hand Extras to Your Neighbors

MILLS GORGEOUS ZINNIAS

Zinnias are a great favorite and there are few flowers that will make such a gorgeous display of colors and but few as easy to grow from seed. They require no special attention and succeed almost anywhere. Plant the seed outdoors after danger of frost any time up to July. In the South plant in Fall or Winter months for early flowers.

Super Giants of California

Flowers 5 to 6 inches across not being unusual, are double in rich, beautiful colors, on long strong stems. Plants grow 3 to 4 feet tall. Mixed—

Pkt., 10c.

Mexican Hybrids

Entirely different from other Zinnias. Plant branches freely producing double, semi-double and single flowers in various colors and markings. Blooms until frost. Mixed—

Pkt., 10c.

Cut-and-Come-Again

Very popular double Zinnias, forming bushy, compact plants 1½ to 2 ft. tall and produce an abundance of medium sized double flowers on long stems from mid-summer until frost. Mixed—

Pkt., 10c.

Navajo—Two-Tone Zinnias

These attractive, medium sized flowers resemble the many bright colors in Navajo Rugs. Produces flowers in great abundance in a wide range of colors and markings. Begins to flower about 45 days from seed. Mixed—

Pkt., 10c.

Rainbow Collection—See Front Cover
Peppermint Stick Zinnias—see page 11

Zinnia—Lilliput Dainty Gem

You'll want this gay newcomer with button-like blossoms 1¼ in. diameter in fascinating bicolors—bright rose pink at the center and lighter flesh pink on the lower and outside petals. Free flowering with wiry stems; ideal for bouquets.

Pkt., 10c.

Pompons

Very showy, plants 12 to 15 in., blooming until frost. Many colors. Mixed—

Pkt., 10c.

Cupid—Smallest of All

Very compact well-formed plants about 1 ft. tall making many branches and producing great numbers of small button-like flowers about 1 in. across from summer to fall. They are fine for bedding, borders, or rock gardens. Mixed—

Pkt., 10c.

Red Riding Hood

The compact plants are covered with small, double scarlet blooms. Especially suitable for borders and edgings.

Pkt., 10c.

Dazzler—Very Attractive

Giant flowers, dazzling red on strong plants. The most striking red we know of. If you want red flowers, grow this Zinnia.

Pkt., 10c.

Fantasy—Pastel Shades

The bushy plants grow about 2 feet tall and are covered with medium sized double flowers composed of a mass of shaggy ray-like petals, giving a delicate appearance in a wide and varied color range of the newer and unusual pastel shades. Mixed—

Pkt., 10c.

Super Crown O' Gold

An improved strain with large well formed flowers in delicate new pastel shades. Petals overlaid at base with deep golden yellow. Mixed—

Pkt., 10c.

Scabiosa Flowered

This is different from all other Zinnias. Plants are vigorous in growth and bloom profusely until frost.

The flower forms an outer ring of petals around a crested center. Many bright colors and shades. Mixed—

Pkt., 10c.

ODORLESS MARIGOLD—Crown of Gold
Pkt., 10c.

MARIGOLDS

8 GORGEOUS VARIETIES

Scarlet Glow—See Page 9

Harmony

Plants about 1 foot tall covered with gorgeous flowers with golden orange petals and reddish brown outer petals. Early free flowering.

Pkt., 10c.

Mission Giants

A new type of Marigold. Plants grow about 18 in. high, branching freely with giant incurved Chrysanthemum blooms which measure from 4 to 5 in. in diameter, almost a perfect ball (see photo). Colors range through a blend of deep medium and golden orange, and lemon.

Mixed Pkt., 10c.

Flaming Fire

The single flowers vary in color at different seasons, from flaming velvety red to odd markings red and yellow. Plants begin to bloom in few weeks from seed and continue until frost.

Pkt., 10c.

Ferdinand—Early

One of the gayest of our new Marigolds and an early bloomer. Single flowers have a neat round crested center of dainty tubular florets in delicate shade golden yellow, surrounded by single row Mahogany-red guard petals, very showy.

Pkt., 10c.

Crown of Gold—Odorless

All-America Gold Medal Winner. First known Marigold with odorless foliage, flower petals curled and quilled, golden orange, sweet scented, long stems, flowers very early.

Pkt., 10c.

Gypsy Jewels

This is an interesting mixture of colors ranging from brilliant orange through primrose, gold and canary yellow. Flowers are 4-5" in diameter, rather shaggy but tightly curled, borne on 15" stems. It is early and continues flowering until frost. Makes an attractive bed.

Pkt., 10c.

Border of Gold—Little Giants

Grows 12 to 15 in. tall, covered with golden flowers, orange star in center. Foliage fern-like and dainty. Fine for edgings, borders, and Rock Gardens.

Pkt., 10c.

MILLS SPECIAL OFFER NO. 2— 2 pkts. ea. of all 8 Marigold varieties: Value \$1.60, 16 pkts. \$1.00

MOONFLOWERS, MIXED
Pkt., 10c.

Moonflowers

A beautiful annual climber; foliage very dense, the flowers being produced in several colors. Many of the sorts open only when the sun rises, others when the sun sets. They reach a height of 15 to 25 feet under good conditions.

Pkt., 10c.

Schizanthus—Excelsior

A new strain. Plants are dwarf growing, compact, pyramidal in shape, and free flowering, fine for the rock garden, low borders, or may be grown in pots; color range includes all the popular pastel shades, pinks, rose, cream, white.

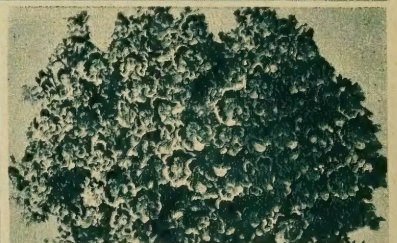

Mixed—Pkt., 10c.

Annual Rock Garden Seeds

For quick results in the Rock Garden we offer a mixture of seed of those annuals growing from about four inches to one foot in height, all of good bright colors, many of them coming into bloom in a few weeks from sowing the seed.

The best method we have found is to sow the seed in a space large enough to allow the seeds to be well distributed and as the plants come up and reach a size large enough to transplant, it is not difficult to distinguish the different kinds.

Pkt., 10c.

SCHIZANTHUS—EXCELSIOR
Pkt., 10c.

ANNUAL ROCK GARDEN SEEDS

Mills Wilt-Resistant Asters

Special Mixture Shades and Colors

Asters have been one of our **Specialties** for many years. They are easy to grow and are still the most popular of Summer and Autumn Annuals. If you have had poor success with Asters in the past try our **WILT-RESISTANT** strains. They are nearly immune to Wilt disease or Stem-rot.

A continuous display of **Aster Blooms** may be had from early Summer until late Fall by planting this **Special Mixture** made up of **Early, Mid-Summer and Fall Varieties**, the best of the large flowering sorts in the most attractive shades and colors. Do not grow Asters on the same ground you grew them the previous year. This **Special Mixture** is the best collection for sizes and colors we have ever offered.

Pkt., 10c.

Giant Ostrich Feather

Large branching plants producing extra large double fluffy flowers on long stiff stems; petals curled and twisted in beautiful shades and colors resembling Giant Chrysanthemums. A few days earlier than Giant Crego, fine for cut flowers. Mixed—Pkt., 10c

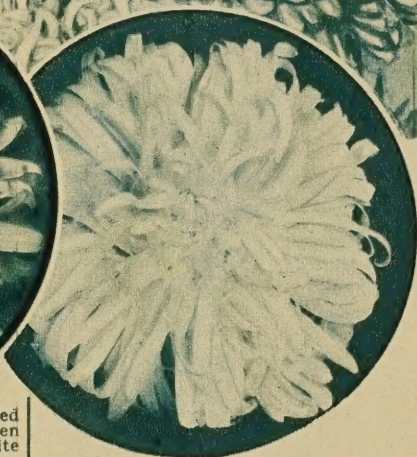

Ballet Queen

Fascinating shade of deep rose touched with salmon, showing a bronze cast when massed. It is extremely double and quite wilt-resistant. Flowers 3½-4" in diameter. Plants are of open spreading growth, freely branching, long stems. Unsurpassed for bedding and cutting. One of the early varieties. Pkt., 10c.

Red Sensation

Reddest of all Red Asters, rich garnet-red, double flowers; very showy. Pkt., 10c.

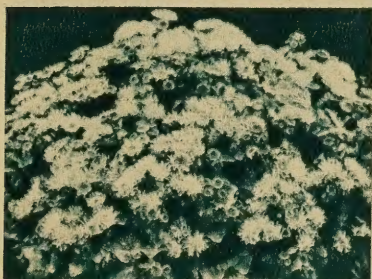

Giant Crego

Flowers very large 4 to 5 inches in diameter on long stems with petals gracefully curled and twisted giving them a beautiful fluffy appearance. Mixed Colors—Pkt., 10c.

PRINCESS ASTERS—See page 9

MILLS SPECIAL OFFER NO. 3 2 pkts. ea. Aster variety inc. Princess and Wilt-Resistant: Value \$1.30, 12 pkts., \$1.00

MILLS Annual Flower Seeds

AGERATUM—BLUE CAP

Ageratum—Floss Flower

Grows quickly and blooms profusely all Summer and is fine for beds or borders.

Blue Cap

Plants are mounds of flowers, dark blue making narrow ribbon of blue around flower bed or along a border. Pkt., 10c

Midget Blue

Smallest of all. Plants grow only 2 to 3 inches high, foliage smothered with small blue flowers. Make wonderful edgings. Pkt., 10c

Alyssum

Showy plants for beds or rock gardens.

Carpet of Snow

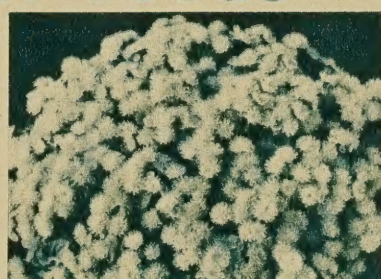

Pure white flowers; dwarf, compact habit, about 4 inches high. Begin to bloom when very small and is a solid mass of white. Pkt., 10c

Violet Queen

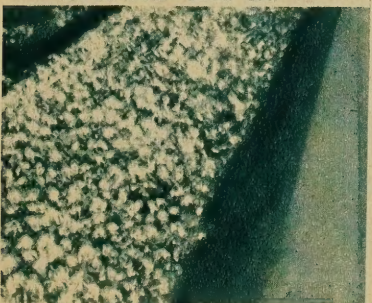

Bright clear violet color. Plants are covered with bloom early summer until frost. Pkt., 10c

Sweet (Maritimum)

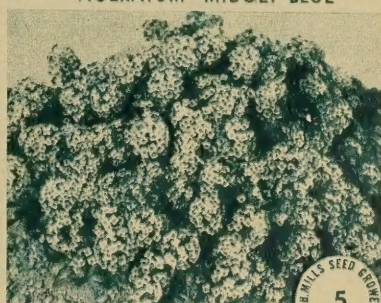

Low-spreading growth about 8 in. in height, sweet-scented, for edgings, window boxes, etc. Pkt., 10c

AGERATUM—MIDGET BLUE

ALYSSUM—CARPET OF SNOW

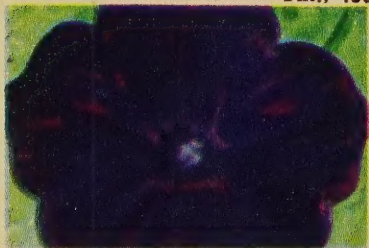

ALYSSUM—VIOLET QUEEN

Theodosia—Fringed and Frilled
One of the most attractive pink fringed and frilled Petunias we have ever grown. Flowers large, beautifully frilled with large open yellow throats. The bright salmon-pink flowers are very pleasing.

Pkt., 15c

Blue Bird

This is a very attractive Petunia, growing from 12 to 14 inches tall, making bushy plants loaded with large flowers of a rich, dark, violet blue color.

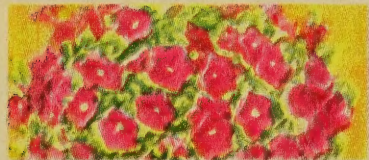

Pkt., 10c

Fluffy Ruffles—Mixed

This beautiful Petunia is an outstanding Novelty and just what its name implies—Fluffy Ruffles, as shown in photo. Blooms averaging 3 1/2 to 4 in. in diameter under normal conditions are so frilled and ruffled that they are often mistaken for Doubles. Colors various shades, with golden throat.

Pkt., Mixed—15c

Celestial Rose

Plant rounded in form, literally covered with flaming rose flowers about 2 1/2 in. in diameter. Photo shown of one plant produced 585 Buds and Flowers in August.

Pkt., 10c

Winter Pansies

Plants grow 2 to 3 ft. high with strong upright stems bearing many blooms on flower stems 8 to 12 in. long; should be grown inside or under glass in 6 in. pots. Sow seeds in summer giving plenty of sun and moisture, will bloom from December to May. Mixed Pkt., 10c

MILLS PETUNIAS

Petunias Are One of Our Specialties. See Front Cover, page 9 and Back Cover for other named varieties of Petunias.

MILLS SPECIAL OFFER NO. 4—

1 pkt. ea. of all 11 varieties shown of Petunias: Value \$1.25, 11 pkts. \$1.00

Giant Rainbow Collection

This includes a Mixture of All Petunias we offer and many others of all sizes, colors, shades, and markings, which will make a sheet of colors all summer until frost.

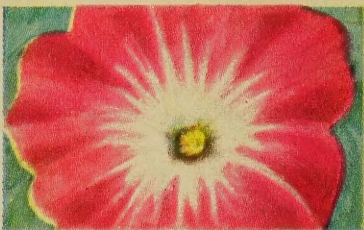

Special Mixture—Pkt., 10c

Glow—Dazzling Red

A great achievement in the development of Petunias, and much talked about; a rare combination of dazzling carmine-red color on dwarf bushy plants. The glowing carmine-red is very brilliant all summer. Highly recommended for pot culture or for border.

Pkt., 10c

Rosy Morn—Improved

A beautiful clear pink bloom with a silvery white throat. Plants are bushy and compact producing flowers in great abundance the entire summer; splendid for beds, borders or boxes.

Pkt., 10c

PORTULACA—

Sun Plant or Moss Rose

For a color display in low Beds. Borders. Rock Gardens, or a ground cover, sow Portulaca. Give sunny location.

Gorgeous Double Mixed

Form dense thick carpet of plants 4 to 5 in. tall covered with double flowers like little roses in many colors; begins to bloom in a few weeks from seed and continues until frost.

Pkt., 10c.

Single and Double Mixed

All colors in Portulaca, single and double in a mixture.

Pkt., 10c.

Dainty Lady—Single Fringed

Best yellow yet produced as far as we know. There is no other color just like it. Plants produce quantities of fringed yellow flowers.

Pkt., 15c.

Flaming Velvet

Velvety-rich, blood-red flowers. Plants grow about 15 inches high, uniform, blooms are large and borne in profusion until frost.

Pkt., 10c.

The Stars-Twinkles

Plants dwarf and bushy; grow about 1 foot tall literally smothered with flowers of lovely rosy carmine, each bloom being marked with white star.

Pkt., 10c.

Balcony—Large Flowering

These are popular for window and porch box display or for planting on terraces or among rock work where the long slender branches can spread out and show their gorgeous colors.

Pkt., 10c.

Novelty Cactus Collection

An exceptionally fine collection of rare and unusual species which you will find fascinating to grow. We suggest you plant a Cactus Dish Garden for a charming arrangement that will require a minimum of time for care and attention.

Pkt., 25c

MILLS ANNUALS

8 FINE VARIETIES

Anoda—Opalcup

A quick and easily grown annual, starts to flower about 5 weeks after planting and continues to bloom until frost. Flowers are crinkly from 2 to 3 in. in diameter of a changeable opal-pink and lavender, a mass of bloom. May be grown for winter window blooming.

Pkt., 10¢

Blue Lace Flower—*Didiscus*

A most beautiful annual flower with dainty, lace-like bloom of a clear night blue. It is out of the easiest culture, and seed sown out-of-doors after frost will make blooms from July until October. Also thrives as a house plant.

Pkt., 10¢

Butterfly Flower

A showy annual, and one of the daintiest of all flowers; produced in beautiful colors and delicate shades. Very decorative for the garden or for pots in the house. When in bloom, plants are literally covered with Orchid-like flowers, crimson, purple, yellow. Mixed—

Pkt., 10¢

Heliotrope—*Giant Hybrids*

Can be raised from seed as easily as the Verbena; everyone loves its beauty and delightful fragrance. Mixed—All colors.

Pkt., 10¢

Dahlias—from Seed

Beautiful Dahlias can be grown from seed and bloom in from 3 to 4 months.

Dwarf Hybrids

These hybrids are entirely different from other Dahlias and are easily grown from seed. Plants grow 15 to 20 inches high.

Flowers are semi-double in a wide range of beautiful colors and are produced in great abundance. Bloom in about 90 days from seed.

Mixed Pkt., 15¢.

Wallflowers—*Annual*

Seed of the annual varieties sown in early Spring will be in full bloom in early Summer, covered with spikes of attractive fragrant flowers in many rich colors. Equal to perennial sorts. Double and Single Mixed—

Pkt., 10¢

Clarkia—*Novelty Mixture*

Easy to grow and very effective in the garden or as cut flowers for the home. Large spikes of double and semi-double flowers are produced in several attractive colors. Does well in poor soil and will grow in partial shade. Double

Mixed—Pkt., 10¢.

Kochia—*Burning Bush*

Annual of very rapid growth. Makes plants as shown 2 to 3 ft. high, leaves slender, of light pea green until Fall, then the plant changes to red color; excellent for borders.

ANNUAL LARKSPURS

Beautiful annual for the garden producing gorgeous flower spikes in many colors.

Brilliant Rose

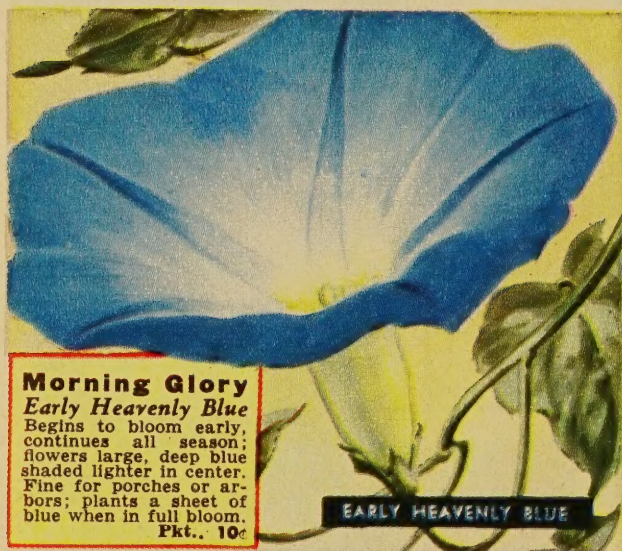

A new introduction of Giant Imperial strain. An intense deep-salmon rose suffused with carmine. Large, round, fully double flowers closely packed on long, tapering spikes. Plants average 4½ ft. tall with laterals branching from base in great profusion. Keeps blooming until frost. Pkt., 10c.

Giant Double —Annual Mixed

These Larkspurs, if seed is sown early spring will bring flowers in July. We offer the best late developments which produce beautiful colors in Giant Double type and keep blooming till frost. Colors are simply gorgeous. thrive in most any soil. Mixed—Pkt., 10c.

LARKSPURS—Giant Double—Mixed

Morning Glory

Early Heavenly Blue

Begins to bloom early, continues all season; flowers large, deep blue shaded lighter in center. Fine for porches or arbors; plants a sheet of blue when in full bloom. Pkt., 10c

EARLY HEAVENLY BLUE

EARLY FLOWERS

LOVELY SWEET PEAS

Early Flowering—Earliest of All

These bloom 2 to 3 weeks earlier than others and give the earliest blooms in the north where seasons are short, and are good for winter flowering under glass. If you have not had good success in growing Sweet Peas, try these Early Flowering in wide range of colors.

Mixed—Pkt., 10c; oz. 35c.

Giant Ruffled—Wavy and Frilled Blooms

These are greatly admired wherever grown and most beautiful of all. The ruffled, wavy, frilled, flowers give appearance of being double; stems long carrying blooms in great abundance, many striking colors.

Mixed—Pkt., 10c; oz. 45c.

Scarlett O'Hara—Rosy Scarlet

Beautiful color in Morning Glories, rich dark rosy scarlet; plants rapid growers and come into bloom quickly from seed.

Pkt., 10c.

Mixed—A fine mixture of the popular old-fashioned Morning Glories in a wide range of shades and colors. Very hardy. Can be planted earlier than other varieties.

Mixed Pkt., 10c.

STATICE

Annual Art Shades

Beautiful blend of Art Shades of Sinuata Hybrids. Plants are robust and produce large clusters in many shades and colors. The gay colors hold their brightness when flowers are cut and dried. Pkt., 10c.

SCABIOSAS—Annual

GIANT MIXED

Also known as Pincushion Flower. Selected strain double flowered. Easily grown from spring sown seed. Does well in any good soil. Very showy coming into bloom early summer and continue until frost.

Pkt., 10c

MILLS SPECIAL OFFER

No. 6 — 1 pkt. ea. all 9 varieties on this page, Value 90c, 9 pkts. 75c.

GIANT SCABIOSAS—Mixed

Marigold—Scarlet Glow

Brightest red of all dwarf double French Marigolds. Plants about 1 ft. tall covered with deep scarlet flowers; begins to bloom in about 10 weeks from seed and continues until frost.

Pkt., 10c.

TORENIA—Wishbone Flower (Fournieri)

Compact globe-shaped plants covered with light blue snapdragon-like flowers, blotched in deeper blue with a yellow throat. Blooms during summer and fall. Fine for beds and borders.

Pkt., 15c.

Cosmos Radiance

1948 Top Award All-America Winner. Striking new color combination, deep rose petals overlaid with rich crimson. First bi-color Cosmos ever to be developed. This is sure to show increasing popularity as one of the first outstanding post war novelty flower introductions.

Pkt., 10c.

Bush Balsam—Cinnabar

The bushy, branching plants are covered with flowers resembling double roses. The attractive vermillion color makes this Balsam especially good for bedding and borders.

Pkt., 15c.

PRINCESS ASTERS—Finest Mixed

The branching plants are wilt-resistant having large fully double flowers with a deeply quilled center, in an excellent range of colors.

Mixed Pkt., 15c.

Red, White & Blue Petunias

All three varieties in this new Petunia Mixture produce mound-like plants, averaging about 1 ft. tall, spreading out 12 to 15 in. This popular flower mixture makes a very attractive bed of colorful Petunias in great profusion and blooms from early summer until frost.

Pkt., 10c.

MILLS SPECIAL OFFER No. 7

1 pkt. each of all 9 varieties shown on this page: Value \$1.30, 9 pkts. only \$1.00

VERBENA BUSH TYPE—Starlight

A lovely new mid-blue color with a creamy eye. Plants are uniform bush habit making compact growth. Grown in a separate bed or as a companion to our SALMON QUEEN it will make an unusually colorful spot in your garden.

Pkt., 15c.

FIRE CHIEF PETUNIA

All America Gold

Medal Winner

This beautiful new Scarlet Red Petunia is the reddest of Red Petunias. Flowers are a striking color of lasting quality and non-fading. Blooms early and continuously producing an exciting display all Summer. Plants are erect and freely branching and will make attractive beds and borders.

Pkt., 25c.

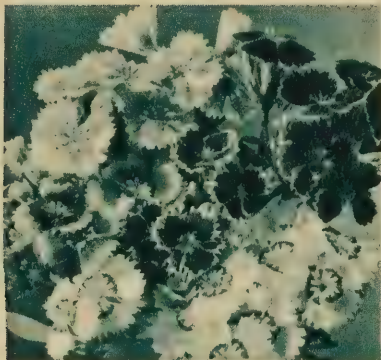

VERBENA BUSH TYPE—Salmon Queen

The new bush-type Verbena Salmon Queen makes an even, uniform bed or border of beautiful flowers over a long blooming season. The color is a pleasing bright Salmon Pink and when grown with the VERBENA STARLIGHT will make a most attractive display.

Mills Finest Home Tested Tomatoes

Grow Plenty of Tomatoes! to eat fresh, to can and to make juice. Tomatoes are delicious and healthful. Rich in Vitamins! Sow seed in a hot bed or in shallow boxes in the house. 5 to 6 weeks are needed to grow plants big enough to set outside.

MILLS SPECIAL OFFER NO. 15—1 pkt. of each item on this page including Strawberries: \$1.35 value for \$1.00

White Beauty

Skin almost paper white. Good size fruit, firm and solid. Almost free from acid. 88 days from plants. Pkt., 10c.

WHITE BEAUTY

Golden Jubilee

The sensational orange yellow tomato with best characteristics of finest red varieties. Smooth, solid, meaty. Mild, few seeds, delightful flavor. 75 days. Pkt., 10c; ½ oz. 50c.

GOLDEN JUBILEE

PONDEROSA

Ponderosa or Giant Climbing

Massive, very solid fruits. Vines properly trained attain height of 8 to 10 ft. and carry an enormous weight of immense tomatoes often weighing 1 and 2 pounds each. Fine for slicing. Few seeds. 70 to 75 days from plants. Pkt., 10c; ½ oz. 50c.

Longred

A new midseason Tomato developed at N.Y. State Experiment Station. It has a smooth, round, deep red fruit bearing over a long period. It is a desirable general purpose tomato with very satisfactory yields. Vines are vigorous with uniform and good sized fruits. 72 days. Pkt., 10c; ½ oz. 50c.

Marglobe

Popular Wilt and Rust-Resistant Variety. Very productive, yielding attractive big clusters of large fruit—globe-shaped, scarlet color and of superb table qualities. Remarkably resistant to wilt and rust diseases. Ready in 75 days. Pkt., 10c; ½ oz. 30c.

Burbank

A Burbank creation that is a valuable early tomato. Fruit is medium in size, bright crimson, thick, solid and heavy. So solid, the skin is more readily removed than from other varieties. One of best for home garden. Begins to ripen in 48 to 50 days from plants. Pkt., 10c; ½ oz. 45c.

Valiant Tomato

An early home and market garden variety. Vines vigorous producing heavy crops of large, smooth, bright scarlet Tomatoes of mild flavor. 70 days. Pkt., 10c; ½ oz. 50c.

Strawberry Alpine—From Seed

Baron von Solemacher is a new selected strain, bearing edible red fruit as large as ordinary commercial varieties, with a wonderful flavor. Plants are bush form and have no runners. When planted early will bear in August and on until frost. Pkt., 25c.

Rutgers

74 days. A commercial variety of great importance in most of the Eastern and Southern states. It is suitable for canning, juicing and for long distance shipping. Large fruit size, 6½ to 7½ ozs. Globular in shape, slightly flattened, smooth, bright red. Vine is vigorous, heavy and wilt-resistant to a high degree. For home or market. Pkt., 10c; ½ oz. 35c.

Earliana—Earliest Strain

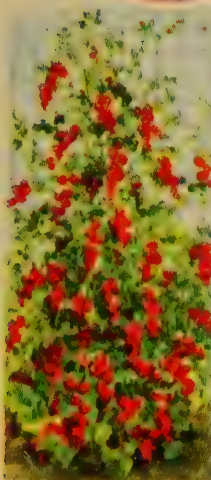

This Tomato is noted for early maturity as demonstrated in our trials. It is a scarlet red Tomato of medium size, flattened globe-shaped. Fruits are firm and smooth, fine quality. A good yielder for early markets, canning or table use. Pkt., 10c; ½ oz. 40c.

EARLIANA

Sugar Tomato

Acclaimed as the sweetest of all Tomatoes. More than 12% sugar. Smaller than regular tomatoes, the round, brilliant red fruits are borne on long clusters 8 - 12 inches in length. Bears enormously throughout the season, ripens early. Different for dainty dishes, salads, sauces, etc., can also be used for juicing without adding sugar. Pkt., 10c.

Ground Cherry

As easily grown as Tomatoes. Ripe fruit is of luscious flavor. Fine for sauce, pies and preserves. Dried in sugar, it's used like raisins for cakes and puddings. Keeps nearly all winter in the husk, in a cool place. Cultural directions on packet. About 68 days from plants. Pkt., 10c.

Topcrop

—Green-Pod
Snap Bean

The All America Gold Medal Winner. Plants are vigorous, producing high yields and widely adaptable to all sections. It is immune to common bean mosaic. Pods are 5-6 in. long, meaty, entirely stringless and without fiber, tender and of excellent flavor. It is considered a good home or market type and is especially recommended for canning and freezing.

Pkt. 15c.
½ lb., 40c.

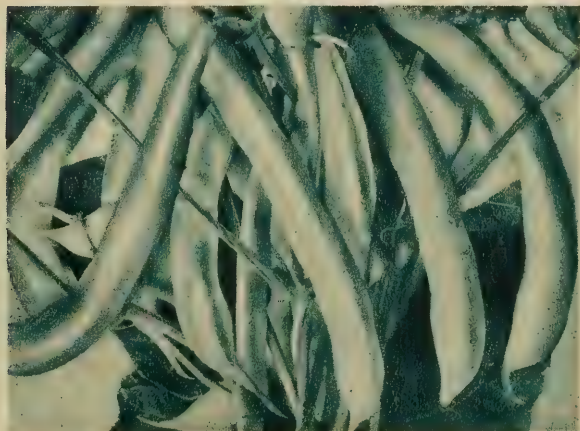

Improved 1200 to 1 Bean

Improved 1200 to 1

Not a snap bean but the most productive winter white shell bean for baking. The plants produce great quantities of pods carried well above the ground, filled with nearly round, pure white beans of the best quality. The crop ripens evenly and usually is ready for harvesting in about 75 days with favorable weather.

Pkt., 10c.
½ lb., 25c

Surecrop Stringless Wax —or Yellow Bountiful

Plants grow upright and carry a heavy crop of handsome, rich yellow pods. Branch freely with meaty, tender pods of fine flavor. Stringless at all times. A favorite in the home garden as a tender snap Bean and fine for pickling. Ready in about 40 days.

Pkt. 15c. ½ lb., 30c.

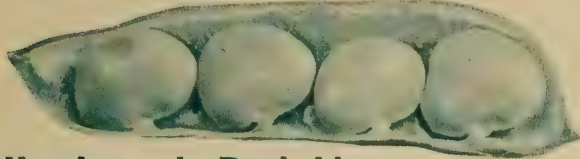

Golden Wax —Rust Proof—Top-Notch Strain

One of the best RUST-PROOF WAX BEANS in cultivation producing heavy crops of large attractive golden yellow pods. Entirely stringless at all stages of growth; fleshy, tender and brittle. Very desirable for the home garden. Ready in about 50 days.

Pkt., 15c. ½ lb., 35c

BUSH LIMA BEANS

Pkt. seed will plant of Early Bush Limas 40 ft. row; or ½ lb. 100 ft. Mammoth Bush Limas Pkt. 20 ft. row; ½ lb. 75 ft.

Henderson's Bush Lima

Smaller than others but the earliest Bush Lima. Fine for using when green or matured for winter use. 66 days for edible size.

Pkt., 15c. ½ lb., 35c.

Burpee's Improved Bush

The best large Bush Lima, growing 18 to 20 inches tall, producing pods large as Pole Limas, but nearly 2 weeks earlier. Beans are thick, of excellent quality, buttery Lima flavor, and a heavy yielder. Edible size in 75 days.

Pkt., 15c. ½ lb., 35c.

Kentucky Wonder

POLE BEANS

Pole Beans are very productive but come into bearing later than Bush Varieties. They must not be planted until soil has become warm. Plant Pkt. seed to 12 or 15 poles. ½ lb. 50 to 75 poles.

KENTUCKY WONDER

Green Pod

One of the earliest green-podded Pole Beans. Pods are of a silvery green color and when young are stringless. Edible size pods are ready in about 65 days.

Pkt., 15c.
½ lb., 35c.

POLE LIMA

Giant Podded Earliest Large-Seeded Pole Lima

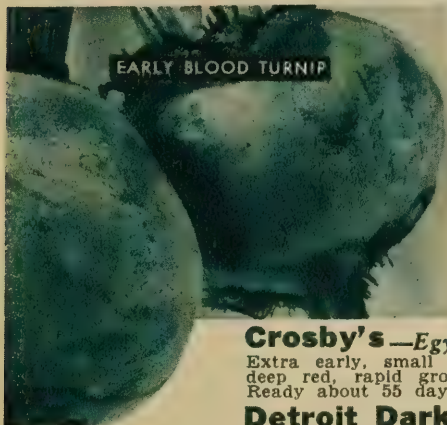

An early and prolific variety, is very hardy and productive. Pods hang in large clusters with 3 to 5 big, fat buttery beans of finest quality to each pod. About 80 days for edible Beans.

Pkt., 15c.
½ lb., 35c.

Giant Podded

TABLE BEETS

EARLY BLOOD TURNIP

Early Blood Turnip

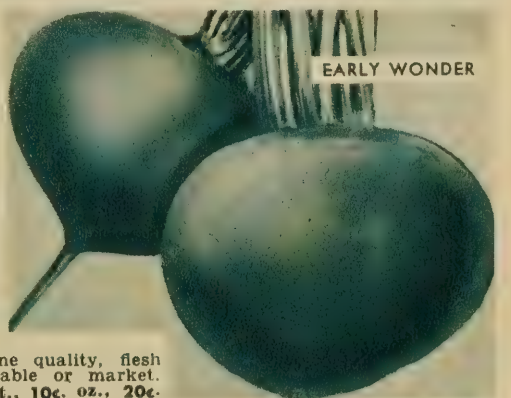

A selected strain; one of the finest blood turnip all-purpose Beets. Very early, uniform in size and shape, fine grained and handsome in appearance. 52 days.

Pkt., 10c;
oz. 25c.

Early Wonder

One of the best for pickling on account of its small round uniform shape. Color a glossy red of fine quality. Is especially good for greens. Ready 55 days.

Pkt., 10c;
oz. 25c.

EARLY WONDER

Crosby's—Egyptian

Extra early, small tops, slender tap-roots, fine quality, flesh deep red, rapid growth. Widely grown for table or market. Ready about 55 days.

Pkt., 10c. oz., 20c.

Detroit Dark Red

An improved Strain of Detroit Dark Red that matures in about 53 days. It is as near perfection as breeding skill can produce; color outside and in is very dark red, flesh is tender and of fine flavor. One of the very best Beets.

Pkt., 10c; oz. 25c.

Long Season

A favorite with Home Gardeners. It remains tender and sweet all summer and fall. Large or small they are always tender. Deep red color throughout, roots half-long, top-shaped. Retains fine quality in storage.

Pkt., 10c; oz. 30c.

Mangels—Sugar Beets

Mammoth Prize Red. The most popular red Mangel, often weighing 20 to 30 pounds.

Pkt., 10c; oz. 15c.

DETROIT DARK RED

CABBAGE

Packet of Seed will produce from 200 to 250 plants; one ounce about 2000 Plants.

We figure days of maturity from time Plants are set in the Garden. About 30 days is required to produce plants from seed large enough for outside planting.

Early Jersey Wakefield

Our earliest hard-heading variety producing fair sized heart shaped heads in about 60 days from plants when growing conditions are favorable. The broad heart-shaped heads are solid, fine grained and we highly recommend for the Home Garden.

Pkt., 10¢; ½ oz., 30¢; oz., 50¢.

EARLY JERSEY WAKEFIELD

GOLDEN ACRE

Golden Acre

Earliest Round-Head

Our best extra early round-head Cabbage. Heads begin to form when the leaves are no larger than a saucer and the development is very rapid. Heads solid just the size for the average Home Garden. Fair size heads in 62 days from plants.

Pkt., 10¢; ½ oz., 30¢; oz., 50¢.

Danish Ballhead

Most Popular for Shipping

Produce large globe-shape extremely solid and compact heads. A sure header and always meets with ready sale. Recommended to grow for Market in Northern States. Matures 108 days from plants.

Pkt., 10¢; ½ oz., 30¢; oz., 50¢.

DANISH BALLHEAD

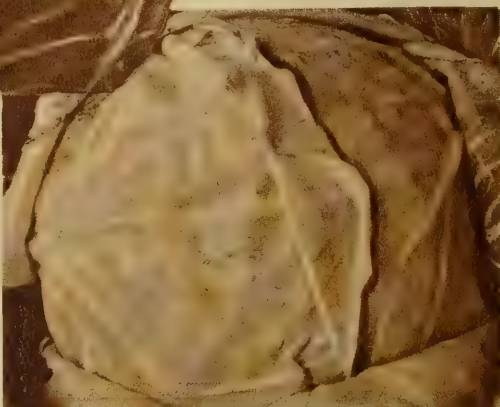

Mammoth Red Rock

Largest of the red cabbages and a sure heading variety. Recommended as the best for pickling. Heads are round, flat on top and very solid, attractive red color. It's the best of the red sorts for Home Garden or Market. Often weighs 6 to 9 pounds each. About 105 days from plants. Store well as they are good keepers.

Pkt., 10¢;
½ oz., 30¢;
oz., 50¢.

MAMMOTH RED ROCK

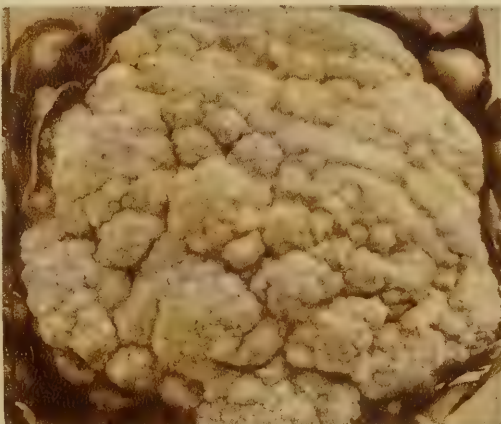

Late Flat Dutch

The King of Winter Cabbage, and we consider it one of the best of large heading, main crop varieties. The solid heads are fine grained and keep well in Winter storage. Ready in 90 days from plants.

Pkt., 10¢; ½ oz., 30¢; oz., 50¢.

Cauliflower

Start Plants indoors or under glass about 30 days before time to set in garden.

Early Snowball

One of the best in cultivation making large, solid, pure white heads of finest quality. Is recommended to use for early or late planting, matures in 85 days from plants. Pkt. seed for about 150 plants, ¼ oz. 1000 plants.

Pkt., 10¢; ¼ oz., \$1.00.

Celery

Start Plants in house or hot-bed for early crop. Pkt. for 500 plants.

Golden Self-Blanching

Standard variety for winter use. Stalks thick and solid, yellowish green until earthed up, then they blanch to golden yellow, matures 115 days from plants.

Pkt., 10¢;
½ oz., 45¢.

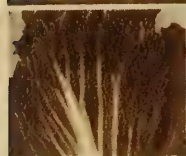

White Plume

Earliest and easiest blanched Celery, recommended for the home garden. Stalks pure white, tender, crisp, matures 110 days from plants.

Pkt., 10¢;
½ oz., 25¢.

CELERY
Golden Self-Blanching

Celery Cabbage

Resembles Cos lettuce, may be used like Lettuce or boiled like Cabbage. Is crisp, easily blanched, excellent as greens or salad, either raw or cooked. 75 days.

Pkt., 10¢;
½ oz., 20¢;
oz., 30¢.

CARROTS

A rich, mellow, deeply worked soil gives the finest Carrots; sow anytime from early spring to July. Packet of seed will sow about 30 ft. of row; one ounce 200 ft.

Chantenay

An early Carrot of deep orange-red color, smooth flesh of fine texture and rich flavor. Highly recommended for bunching, roots free from stringiness and very uniform in size. Ready in about 72 days.

Pkt., 10¢.
1/2 oz. 30¢; oz. 40¢.

Danvers Half Long

For home garden or for market. An excellent sort for winter storage. The flesh, a rich orange color, is fine-grained, of a sweet flavor. About 75 days.

Pkt., 10¢.
1/2 oz. 30¢; oz. 40¢.

Long Orange

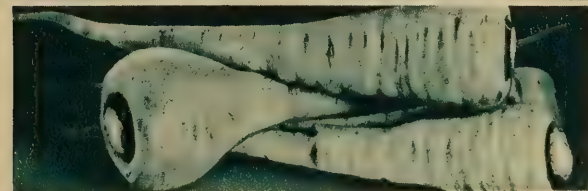

Roots grow uniform in size, about 10 inches long, smooth, and the color is a deep rich orange. Splendid keeper. 85 days.

Pkt., 10¢.
1/2 oz. 30¢; oz. 40¢.

Oxheart

A favorite for the home garden, growing 4 to 6 inches long. Can be used while roots are small. It is a distinct variety. Ready about 73 days.

Pkt., 10¢.
1/2 oz. 30¢; oz. 40¢.

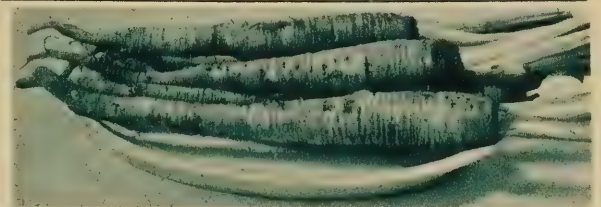

PARSNIP

Grow plenty of Parsnips. They are easy to grow. Pkt. for about 20-foot row; oz., 200 ft.

Long Smooth Roots large, flesh white, of fine flavor, cooking tender, rich and sweet. Roots hardy—may be left outdoors in Winter or stored in cool cellar. 100 days.

Pkt., 10¢; 1/2 oz. 20¢; oz. 30¢

SALSIFY (Oyster Plant)—Mammoth Sandwich Island

Sow seeds in Spring as roots require full season to mature. Is grown much like Parsnips, may be left in ground all Winter but for Winter use dig and store in Fall. Pkt. seed for 20 ft. row, oz. 100 ft.

Pkt., 10¢; 1/2 oz. 35¢.

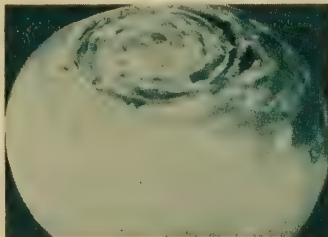

TABLE TURNIPS

One packet of seed will sow about 40 feet of row; one ounce 200 feet.

Early Purple Top Strap Leaf

The roots are quite flat, flesh fine grained, sweet and tender. Develop quickly for table use. Seed sown in July produces Turnips in fall. 48 days.

Pkt., 10¢.
oz. 20¢.

Early Purple Top Strap Leaf

Purple Top White Globe

Large, globe-shaped variety with purple top and lower part of bulbs pure white. Heavy yielder and of excellent quality for table use. 56 days.

Pkt., 10¢; oz. 15¢.

EARLY SNOWBALL

Early Snowball

A white variety, bulbs having pure white skin and are nearly round, tender and sweet. One of the very best to sow in the early Spring. Develops rapidly. 45 days.

Pkt., 10¢.
oz. 15¢.

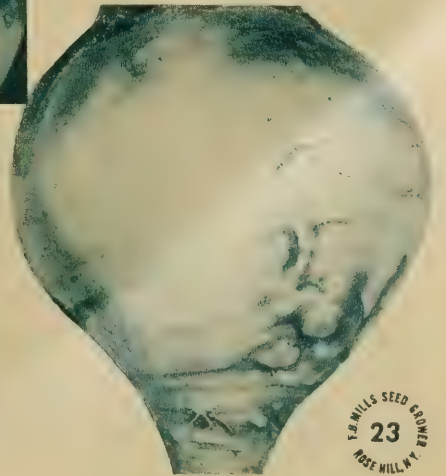

RUTABAGAS

(Winter Turnips)

Purple Top Yellow

Large, globe-shaped roots, yellow flesh, fine grained, sweet, best yellow Rutabaga. 90 days.

Pkt., 10¢; oz. 20¢.

23
R. H. MILLS SEED GROWER
ROSE HILL, N.Y.

SWEET CORN

Do not plant sweet corn until danger of frost is passed and ground warmed up. Plant in hills 2 to 3 ft. apart dropping 3 to 4 seeds in a hill. For succession plant every two weeks up to July. A packet of seed will plant 25 hills, one-half pound 240 hills. It is very important that corn be planted in blocks of several rows and not in a single row, so that the pollination of ears, which is affected by wind will make well filled ears and well developed grains.

GOLDEN BANTAM

Early White Market—50 to 60 Days

One of the earliest varieties for the home garden; ears are white of good size, well filled of superior quality. It is largely planted every year by our customers and under favorable conditions matures ears for home or market first of all.

Pkt., 10c; ¼ lb., 16c; ½ lb., 26c.

Golden Bantam—76 to 80 Days

A famous Sweet Corn; the leading golden yellow variety; stalks 5 to 6 ft. tall usually bearing 2 ears to the stalk 5½ to 6½ in. long, 8-rows of broad golden yellow kernels of delicious flavor. Suited for early or later planting up to July 1st.

Pkt., 10c; ¼ lb., 15c; ½ lb., 25c.

Golden Sunshine—66 to 70 Days

A first-class early golden yellow garden sort and a few days earlier than Golden Bantam. Ears average about 7 in. long with 10 to 12 rows golden yellow kernels of excellent quality. Stalks are not quite as tall as Golden Bantam but may produce 2 ears each.

Pkt., 10c; ¼ lb., 15c; ½ lb., 25c.

Hybrid Varieties

More and more people are discovering each year the advantages of hybrid sweet corn such as better yields, stronger stalks, more uniform and finer quality of corn. They are more resistant to disease and adverse weather conditions than the open pollinated varieties. We are listing four good hybrid varieties to meet different tastes and conditions.

Carmelcross

The finest second-early hybrid. It is a heavy yielder with large, well filled ears, of deep bright yellow kernels, sweet and tender, ripening just after early kinds are past. We recommend it for home canning or quick freezing. 72 days.

Pkt., 10c; ¼ lb., 25c; ½ lb., 40c.

Lochief—

All-America 1951
Gold Medal
Selection

A very productive yellow hybrid. Drought resistant, excellent flavor and tenderness. Bears ears 8½ in. long, 14 to 18 rowed, high on stalk for ease in harvesting. Kernels golden, deep and uniform. An ideal variety for canning and freezing. 89 days.

Pkt., 10c; ¼ lb., 25c;
½ lb., 40c.

Spancross— Marcross—

—60 Days

Earliest. Hybrid Yellow Corn with medium sized ears, 2 to 7 in. long, and short stalks growing only 4 to 5 feet high. It is 12-rowed and resistant to wilt and somewhat resistant to cold, and can be planted much earlier than other varieties.

Pkt., 10c;
¼ lb., 25c;
½ lb., 40c.

—65 Days

One of the early yellow hybrids and a very desirable variety for the Home or Market gardener. Also excellent for freezing. Stalks 5 ft. tall with 7 inch ears well filled with medium broad kernels of fine flavor. Very productive and highly resistant to bacterial wilt.

Pkt., 10c;
¼ lb., 25c;
½ lb., 40c.

MARCCROSS

Golden Midget

(TENDER SWEET CORN IN DAINTY 'FINGERLING' EARS!)

Smallest yellow Sweet Corn. Very early, sweet and tender. Ears 4 to 4½ in. long. Stalks 3 ft.

Pkt., 20c; 3 Pkts. 50c.

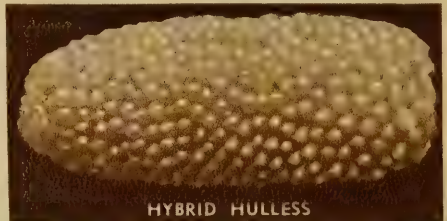

Pop Corn

There is a great satisfaction in growing your own Pop Corn. A packet will plant 80 ft. of row; ¼ lb. 600 ft. plant same as other corn and allow ears to mature thoroughly before harvesting in the fall.

Hybrid Hulless (Minhybrid 250)

This hybrid pop corn was developed by the Minnesota State Experiment Station and is adapted to Northern areas. It is of superior quality and is very productive with well filled chunky ears of small white kernels. When popped it is tender, large and fluffy, and of delicious flavor.

Pkt., 15c; ¼ lb., 30c; ½ lb., 50c.

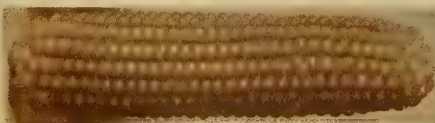

HYBRID HULLESS

South American Giant

Dynamite or Mushroom Pop Corn

New large, golden pop corn called by some Dynamite or Mushroom. Stalks 6 to 7 ft. tall and produce 2 or more ears each, which are 6 to 9 in. long. The kernels are a deep golden color, extra large, and pop very large, a rich creamy white, tender and delicious flavor. Matures in about 115 days.

Pkt., 10c; ¼ lb., 20c; ½ lb., 30c.

SOUTH AMERICAN GIANT

FRESHLY POPPED

GARDEN PEAS

For a continuous supply make sowings every two weeks until June. Sow again in early August for Fall crop. Packet of seed will sow 15 to 20 ft. row; ½ lb. 50 to 60. ft.

PREMIUM GEM

Premium Gem

One of the best extra early Peas, strong and vigorous in growth making vines from 12 to 18 in. in height with dark green foliage producing an abundance of pods well filled with medium large dark green peas of the best quality. Seed is medium green, wrinkled and well suited to the home garden. Vines require no support. In our trials last season pods were large enough for first picking in 60 days from planting the seed.

Pkt., 10¢; ½ lb., 25¢.

American Wonder

A well known early wrinkled Pea. Vines grow 12 to 15 in. tall, very prolific and preferred by many of our customers with limited garden space. Pods about 3 in. long, well filled with 5 to 7 large Peas in each pod of high quality. Will mature in about 58 days from planting and the strong vines require no support.

Pkt., 10¢; ½ lb., 30¢.

Bliss Everbearing

A well known Pea. Bears over a long season, pods well filled with large peas of fine quality and usually do not require support for the vines, as they are very robust, and commence to produce pods in 70 to 75 days. Vines grow about 2 feet high, of a branching habit and one of the best main crop garden Peas.

Pkt., 10¢; ½ lb., 25¢.

FREEZER TYPE

This group of Pea varieties is especially good for freezing as well as canning. Thomas Laxton, an old variety has been found excellent for freezing. Our Alderman Pea is in the same class. Freezonian, a new pea developed especially for quick freezing is of the Laxton type and is a very desirable Pea to grow in the home garden.

THOMAS LAXTON

Thomas Laxton

An old well known variety, but still at the top in production and flavor. Now found especially good for freezing as well as canning. Vines wilt resistant about 36 in. long. Pods dark green, long, plump, filled with 7-8 large tender peas. Season 60 days.

Pkt., 10¢; ½ lb., 30¢.

Freezonian

All-America Bronze Medal Winner 1948. New variety of the Laxton type developed especially for quick freezing. Wilt resistant. Dark green vines 2½ ft. Pods long, blunt ended well filled with 6-8 large peas with a clinging tender skin which doesn't peel or loosen in freezing. 63 days (not pictured).

Pkt., 10¢; ½ lb., 35¢.

Alderman

GIANT OF PEA FAMILY

Many of our customers know the value of this variety and for a large Pea will have no other. It is a heavy cropper, many pods being 4 to 5 in. long, with 8 to 10 extra large dark green peas of the most excellent flavor. Vines grow to a height of 4 to 5 ft., pods being produced in great abundance and are ready for the first picking in 68 to 72 days under normal conditions.

Pkt., 10¢; ½ lb., 30¢.

EXTRA EARLY
MAMMOTH PODDED

Extra Early Mammoth Podded

A very prolific early wrinkled Pea valuable for its extra large pods. Vines 24 to 30 in. tall, medium green, heavy foliage, vigorous and productive. Pods unusually large, 4 to 4½ in. long, dark green filled with 7 to 8 large, round, medium, dark green Peas of excellent quality. In our trials the past season from the day seeds were planted first picking was made in 52 days. We highly recommend this large podded Early Pea.

Pkt., 10¢; ½ lb. 30¢.

ALDERMAN

PEANUTS

Plant 6 to 8 inches apart in rows, break pods before planting. Interesting to grow in Northern Gardens.

Early Spanish

Earliest variety, maturing in about 100 days. Grows upright with heavy foliage, pods clustered at the base are small but well filled with nuts of sweet flavor.

Pkt., 10¢.

Mammoth

Makes compact plants with spreading form and heavy stalks. It produces great quantities of giant nuts and does well under favorable conditions if planted early in Northern gardens, maturing in about 120 days. Light, sandy soil is best.

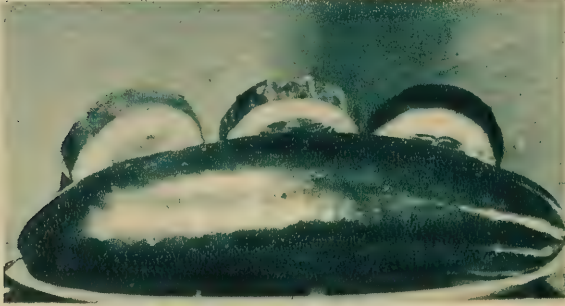

Pkt., 10¢.

25
HILLS SEED HOUSE
HOSE WILL, N.Y.

CUCUMBERS

Cucumbers should be grown in every garden. Plant seed after danger of frost and at intervals up to July. One packet seed will plant about 12 hills, ounce 50 hills.

Early Fortune

A reliable everbearing variety producing its first fruits very early and continuously over a long period. The smooth fruits, medium in size, are produced in abundance closely set on strong vines. It retains its rich dark green color for a long time, and the flesh is pure white at all stages of growth. About 55 days.

Pkt., 10¢;
oz. 25¢.

Japanese Climbing

Well adapted for trellis culture. Young plants are rapid growers and may be grown on fences, poles or trellises. Fruits dark green, skin smooth; flesh crisp and mild flavored. About 60 days.

Pkt., 10¢; oz. 30¢.

Marketer

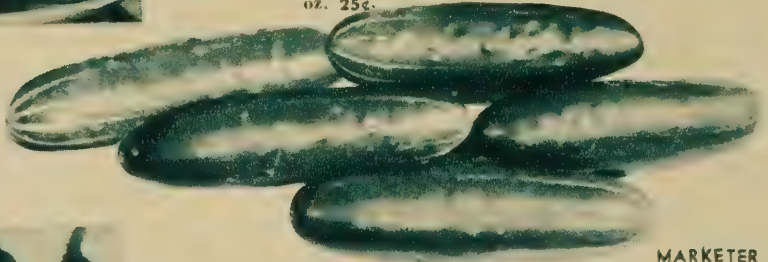

A popular new variety and a prolific yielder. Fruits 8" long, 2½" in diameter, slightly tapering at ends. White spined, vines vigorous. Its uniform shape and attractive dark-green color make it an excellent variety. Fine slicer. 65 days.

Pkt., 15¢; ½ oz. 30¢; oz. 45¢.

National Pickle

Cucumber of small size there is nothing to compare with "Fancy Pickles," a specialty we have supplied for some years past. If fruits are regularly gathered, the vines continue bearing throughout the season. Fruits are very uniform, productive of fine flavor, dark green in color and a few vines will produce a great quantity. Ready in about 50 days.

Pkt., 10¢; oz. 25¢.

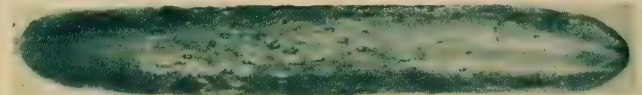

MARKETER

Improved Long Green

Of superior quality. Flesh firm and crisp, young fruits used for pickling, and the full-sized cucumbers for slicing. Popular for home or market garden. 65 days.

Pkt., 10¢; oz. 30¢.

Long China

Fruit is so long and slender as to be considered a novelty. Skin dark green; pure white flesh very crisp and good for slicing. About 70 days.

Pkt., 15¢; ½ oz. 30¢.

National Pickle

ONIONS

Good sized onions are easily produced the first year from early Spring sown seed. A packet will sow about 25 feet of row and one ounce about 150 feet.

Early Yellow Globe

Earliest yellow globe Onion, medium size, light yellowish-brown color, flesh pure white mild flavor, solid and crisp. 95 days.

Pkt., 10¢; ½ oz. 35¢; oz. 55¢.

Giant Sweet Spanish

A large sweet Spanish mild flavored Onion which can be grown in the home garden in well tilled rather rich soil. Flesh pure white, mild flavor. 110 days.

Pkt., 10¢; ½ oz. 40¢; oz. 60¢.

Red Wethersfield

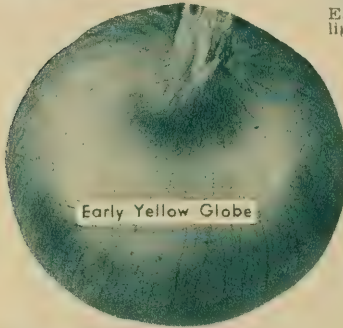

Outer skin a deep rich purplish red, smooth and glossy, flesh white, mild flavor. 110 days.

Pkt., 10¢; ½ oz. 35¢; oz. 55¢.

Yellow Globe Danvers

Selected stock, bulbs globe-shaped, good size, outer skin pale yellow, flesh pure white, crisp and mild. 110 days.

Pkt., 10¢; ½ oz. 35¢; oz. 55¢.

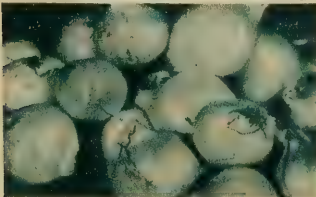

Early Yellow Globe

Prizetaker

In size, beauty, productiveness and mild flavor, few onions can surpass the Prizetaker. Skin is thin, of a bright straw color, flesh pure white, crisp, mild and sweet flavor maturing in about 105 days.

Pkt., 10¢; ½ oz. 35¢; oz. 55¢.

White Portugal

Earliest ripening Onion and best for pickling, averaging from 1 to 1½ inches in diameter, pure white, very mild, delicate flavor. Also fine for bunching for early market. 65 days.

Pkt., 10¢;
½ oz. 40¢.

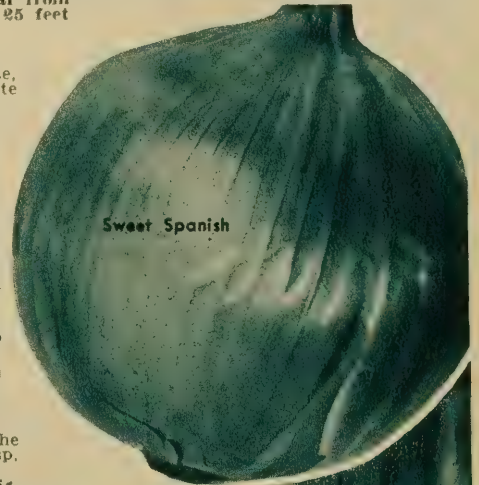

Prizetaker

Early White Welsh

Grown for early green Onions or for bunching, as it does not make a bulb. It is very hardy and shoots attain marketable size very quickly. Color is pearly-white and flavor very mild. Sow seed in early spring for summer use, or late summer or fall in the South. It winters over well in the North where weather is not too severe if planted in mid-Summer.

Pkt., 10¢;
½ oz. 40¢.

Sweet Spanish

Early White Welsh

RADISHES

One of the earliest vegetables from the garden in Spring. First sowings may be made as soon as frost is out of the ground and succession plantings every 10 days. Packet seed for 20 ft. row; oz., 100 ft.

Crimson Giant

Deep crimson. Flesh white, firm and crisp, mild flavor. It grows to perfection in rich, well prepared soil and is ready in about 30 days. Very popular.

Pkt., 10c; oz., 20c.

Early Scarlet Globe

Quickest growing scarlet globe. Radish we have ever grown. Is of fine shape and color with small top. The pure white flesh is very crisp, with a mild flavor. 15 to 25 days.

Pkt., 10c; oz., 20c.

EARLY SCARLET GLOBE

Comet

An early globe-shaped radish. Skin rich bright scarlet, flesh white, crisp and mild. Recommended for Home and Market gardens.

Icicle

—Most Popular of all Long Radishes

Best early long white Radish. Roots white, crisp and mild until they become quite large, being excellent for table use. Earliest of the long-rooted sorts. About 30 days.

Pkt., 10c; oz., 20c.

French Breakfast

—Oblong Shaped

Rose scarlet, tipped white, very rapid grower, oblong in shape, quality crisp and tender. Popular for home garden or market. 24 days. Pkt., 10c; oz., 20c.

FRENCH BREAKFAST

HERBS

Should be grown in every Vegetable Garden. To keep over winter dry foliage and store in boxes or air-tight jars.

Anise—Annual 75 days, used flavoring, Pkt. 10c.

Basil Sweet—Annual 85 days, leaves used flavoring. Pkt. 10c.

Caraway—Biennial 76 days, seeds used flavoring. Pkt. 10c.

Coriander—Annual 75 days, seeds used flavoring. Pkt. 10c.

Dill—Annual 70 days, leaves used pickling, flavoring. Pkt. 10c.

Any 4 above Pkts. 35c.

SAGE—Perennial

Used for seasoning sausage, other meats, dressings, stews, soups, etc., either dried or fresh. Pkt. 15c.

CHIVES

A small hardy perennial plant, having green tops of mild onion-like flavor. Used in salads, sauces, meats, etc., and may be cut often during season. Pkt., 15c.

LETTUCE

Every garden should have a good supply of Lettuce. Sow seed at intervals for continuous supply. One packet seed will sow 30 to 40 feet of row; 1 oz., 250 feet.

Grand Rapids

Very early variety, forming a compact mass of finely fringed and crumpled leaves, light green in color, crisp and tender. We recommend it for Northern gardens. Ready in 30 to 40 days.

Pkt., 10c; oz., 30c.

Oak Leaf

Popular leaf lettuce suitable for all seasons and is considered one of the best for home gardens. Its dark green leaves are tender and withstands hot weather. May be cut often.

Pkt., 10c; oz., 30c.

Iceberg

Leaves are crisp and brittle, somewhat curled with bronze edges, forming the compact head. It makes an unusually attractive head. Lettuce of medium size. Excellent for home garden. 70 days.

Pkt., 10c; oz., 30c.

New York No. 12

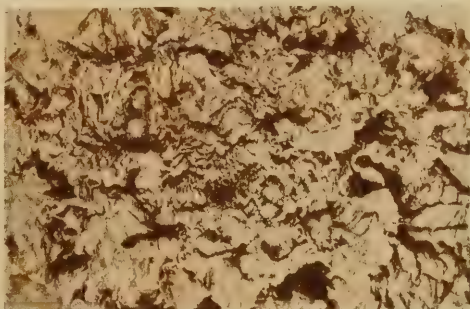

Largest of all Head Lettuce, very fine quality and attractive green color. It withstands heat remarkably well. The tightly folded head is well blanched to a silvery white. Crisp, and sweet flavor. 83 days.

Pkt., 10c; 1/2 oz., 20c; oz., 35c.

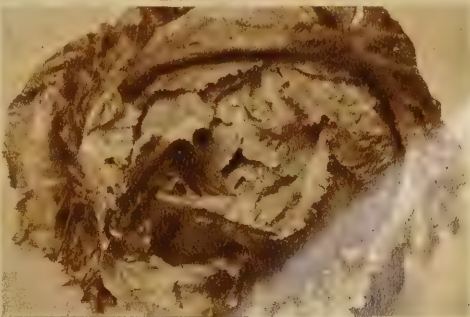

Chicken Lettuce

Very different from other lettuce. Ready in about 40 days from sowing. Used for feeding poultry and rabbits. Heavy yielder of green feed. Rapid new growth after each cutting.

Pkt., 10c; oz., 20c.

EARLY PRIZEHEAD

GREAT LAKES LETTUCE

Great Lakes Lettuce

All America winner. In early stages delicious as leaf lettuce. Produces large, solid heads. Withstands hot weather. Pkt., 10c; 1/2 oz., 40c.

Early Prizehead

Very popular variety producing loose heads, leaves being curled and crumpled, bright green color, heavily shaded reddish-brown. 44 days.

Pkt., 10c; oz., 30c.

LEWIS SEED COMPANY
27
ROSE HILL, N.Y.

GRAND RAPIDS

ICEBERG

MUSKMELONS—Cantaloupes

Plant some Muskmelons for home use, but do not plant seed until soil has warmed up in Spring. One packet seed for 10 to 15 hills; one ounce 40 to 50 hills.

LAKE
CHAMPLAIN

Hale's Best—Orange Flesh

Delicious thick orange flesh. Vine produces heavily in medium sized fruits, attractively netted. About 85 days.
Pkt., 10c; oz. 35c.

HALE'S BEST

Lake Champlain

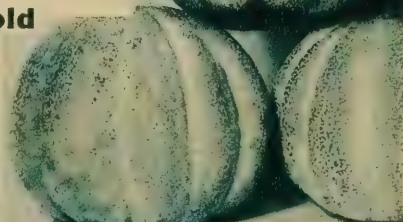

—Orange Flesh

One of the very earliest and best orange-fleshed Melons of fair size and the quality cannot be surpassed. Flesh is very thick and fine grain and of luscious flavor. Melons run uniform in size and is a most excellent variety for the home garden, especially where the growing seasons are short. Ready in about 80 days.
Pkt., 10c; oz. 35c.

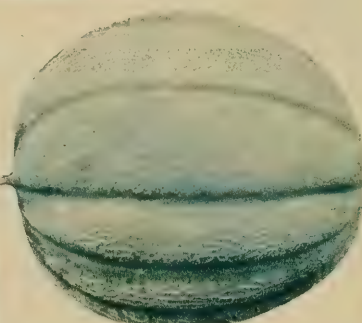

Hearts of Gold

—Orange Flesh

Of the very finest quality, the rich, firm, salmon-flesh ripening to the rind; of delicious flavor. Rind tough and thin. Its vine is very vigorous and a heavy cropper. Ready in about 88 days.
Pkt., 10c; oz. 35c.

HEARTS OF GOLD

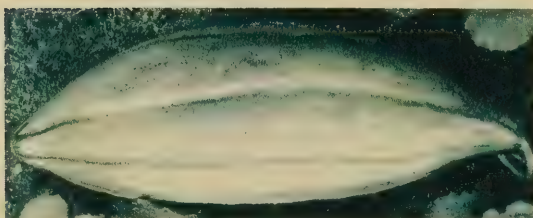

Iroquois—90 days

This fine variety is resistant to wilt. Fruits are round to oval flesh thick of sweet flavor and deep salmon color. Skin is grayish green with coarse netting, hard rind. Its heavy production and high quality is well adapted to roadside marketing and home gardens.
Pkt., 15c; oz. 60c.

Benders Surprise

A large, first quality Muskmelon. Fruits thick, delicious salmon fleshed, skin greenish yellow when matured. Distinctly ribbed. Fine for the home garden. About 90 days.
Pkt., 10c; oz. 30c.

Banana

—Salmon Flesh

Banana shaped fruits which attain a length of 15 to 20 in. and diameter of 3 to 5 in. Have a delicate flavor and Banana-like aroma. Skin smooth turning to lemon-yellow when ripe. 95 days.
Pkt., 10c; oz. 35c.

WATERMELONS

Rich sandy soil is best for Watermelons. A packet of seed will plant 8 to 10 hills, one ounce 25 to 30 hills.

Stone Mountain

Has a solid dark green thin rind and sweet flavored scarlet flesh, few seeds. Fruits have weighed up to 45 lbs. 85 days
Pkt., 10c; oz. 25c.

Golden Honey

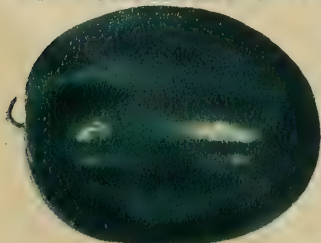

Rich, golden flesh, quality first class. Rind is dark green, mottled and veined. About 90 days.
Pkt., 10c; oz. 25c.

Imp. Kleckley Sweets

Earliest of the large Melons and good for home gardens or nearby market. Dark green glossy skin, rind thin, flesh bright scarlet, crisp and sweet. About 85 days.
Pkt., 10c; oz. 25c.

New Hampshire Midget

A small Watermelon weighing from 2 to 4 pounds, about the size of a cantaloupe. It is well adapted to small families and apartment size refrigerators. It is extremely early in maturing and produces melons of excellent quality within 65 days from planting. Flesh is bright red. Gray-green rind with dark green veinings.
Pkt., 20c; oz. 60c.

Early Canada

A splendid early Melon for the home garden, and especially northern gardens. Weight varies from 10 to 15 pounds, according to the location, soil and weather conditions. Skin is mottled green, flesh red, sweet, juicy and crisp. Will mature in about 80 days. Some sections in 75 days.
Pkt., 10c; oz. 30c.

PUMPKINS

No farm should be without some Pumpkins—some big ones for exhibition purposes, plenty of Pie Pumpkins and some for stock. Packet seed will plant 6 to 10 hills, ounce 25 hills.

Winter Luxury Enormously productive of medium size, and is a yellowish russet color. The flesh is a deep golden color, sweet and tender. A quality pie pumpkin and a good keeper. Matures about 95 to 110 days.

Small Sugar—Boston Pie One of the very best for pies. Fruits are small, averaging 7 to 8 inches in diameter, with skin deep orange-yellow and flesh very fine grained, sweet and delicious flavor. It is a favorite for pies and the best pumpkin for general use. A prolific yielder and an excellent keeper. Matures in about 100 days.

King of the Mammoth or Pot Iron. A very large variety and under special cultivation it attains a weight of over 100 lbs. It makes an interesting specimen for show purposes and is particularly valuable for stock feed. The outer skin is a rich orange-yellow, flesh yellow, very thick; a good winter keeper and will mature in 80 to 100 days.

12 pkts., \$1.40 value only \$1.00

SQUASH

A profitable crop and one of the best that is produced from the home garden. Packet seed Summer varieties will plant 8 hills, oz. 40 hills. Winter sorts Pkt. 6 hills, oz. 25 hills.

Improved Hubbard

A carefully selected strain of the best Winter Squash, the hard-shelled, warty Hubbard with the golden yellow flesh that cooks up so dry and mealy and so rich in flavor. Specimens throughout a large field will run very uniform in size in this true Hubbard type which is the most widely grown green squash. Matures in from 112 to 115 days.

Blue Hubbard

Considered by some the best of all the Hubbard strains. The large, blue-gray fruits have slightly tapered ends, hard shells, ridged and warted. Flesh is bright yellow, thick, fine grained and very sweet. Cooks dry. A heavy yielder and stores well.

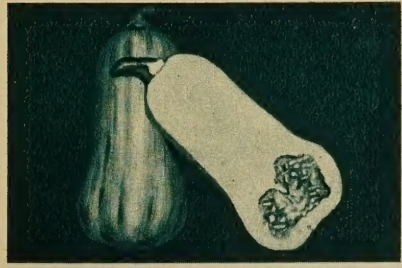

Golden Delicious

An early Winter variety of medium size, preferred by some to Hubbard. Shell hard but thin, bright yellow flesh, fine grained. Ideal home garden squash. Matures 100 to 110 days.

Acorn or Table Queen

Grows about 7 in. long and 3 in. thick, green skin. Cut in halves and baked its delicious flavor is a pleasant surprise, very dry and mealy, a rich orange in color, productive and keeps well. 80 to 90 days.

Butternut

A squash of excellent quality. Small seed cavity is located in the globular bottom of the fruit. The thick neck is solid flesh, fine grained and delicious flavor. Autumn and Winter variety. About 85 days.

Buttercup

A High-yielding small squash that cooks sweet, dry and without fibre. Thin rind, thick flesh. Matures early. Keeps well. 100 days.

White Bush—or Patty Pan

The leading white summer squash. Flesh very tender, thick, fine grained and well flavored. Uniform in size and shape and matures early. About 56 days.

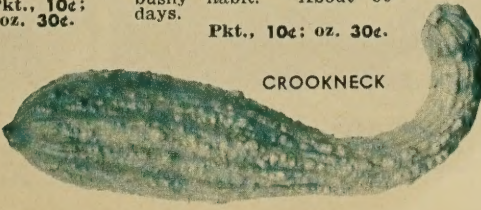

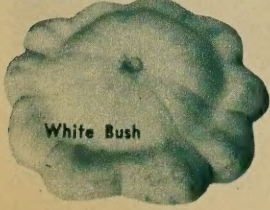

Golden Summer Crookneck

Favorite among the Summer Squash; has a heavily warted shell with deep golden yellow flesh, plant bushy habit. About 50 days.

Uconn

A bush variety similar to the Table Queen. The runnerless habit requires less space but will produce many fruits on small compact plants. Fruits are acorn in shape, slightly grooved and ridged. Shell is thin and hard, smooth and dark green. Flesh orange-yellow with rich flavor. Excellent for the home garden.

MILLS FULL FLAVOR Vegetables To Give Your Meals a Lift

SPECIAL OFFER

1 pkt. ea. item shown on this page.
9 Pkt.—90¢ value, only 65¢.

Swiss Chard

Also known as Spinach Beet and is grown for its leaves for greens. It replaces Spinach during hot weather. Sow seed anytime from early Spring until midsummer. Pkt. Seed for 20 ft. row, oz. 100 ft.

Fordhook Giant

Dark green leaves grow very large and are crumpled and yield a big crop of greens all Summer and Fall. Stems pearly white, quality the best. 60 days.

Pkt., 10¢; oz. 20¢

TAMPALA

The introducer says "This is a delicious green vegetable, different in flavor to other vegetables used as 'greens' and it has a flavor all its own. The leaves can be cooked, prepared and served like spinach. It has more food value than either spinach or chard, does well in hot weather and keeps on producing all summer." Should be ready to begin cutting 6 to 8 weeks from seed. Make several plantings few weeks apart for continuous supply.

Pkt., 10¢; 3 Pkts., 25¢.

SPINACH

Bloomsdale Long Standing

Quick growing spinach and one of the best all around varieties. Plants compact, vigorous, leaves thick, dark green tender and of good quality. About 45 days.

Pkt., 10¢; oz. 20¢.

Seed should be sown very early in spring and at intervals until early summer. For fall use sow in late summer. Pkt. for 20 ft., oz. 75 ft.

BLOOMSDALE

New Zealand

Hot Weather Spinach

Withstands the summer heat and keeps on bearing, as the spreading plant is sending out side shoots continually, the tips of which are always fresh and tender while other kinds have gone to seed. Have Spinach all summer and fall. About 68 days.

Pkt., 10¢;
½ oz., 20¢; oz., 30¢.

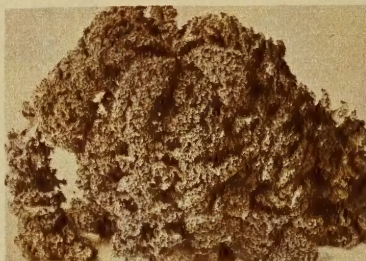

NEW ZEALAND
